

## **Marie R. Pistilli Women in EDA Achievement Award**

**Kathryn Kranen** - President & CEO, *Jasper Design Automation*, Mountain View, CA  
For her significant contributions in helping women advance in the field of EDA technology.

## **The P. O. Pistilli Undergraduate Scholarships for Advancement in Computer Science and Electrical Engineering**

The objective of the P. O. Pistilli Scholarship program is to increase the pool of professionals in Electrical Engineering, Computer Engineering, and Computer Science from under represented groups (women, African American, Hispanic, Native American, and physically challenged). In 1989, ACM Special Interest Group on Design Automation (SIGDA) began providing the program. Beginning in 1993, the Design Automation Conference provided the funds for the scholarship, and SIGDA continues to administer the program for DAC. DAC normally funds two or more \$4000 scholarships, renewable up to 5 years, to graduating high school seniors.

The 2005 winners are:

**Elizabeth Hong-An Boi Ha** - attending Georgia Institute of Technology

**Hans Edgar Anderson** - attending Massachusetts Institute of Technology

For more information about the P. O. Pistilli scholarship, contact Dr. Cherrice Traver, ECE Dept., Union College, Schenectady, NY 12308. email: [traverc@union.edu](mailto:traverc@union.edu)

## **Design Automation Conference Graduate Scholarships**

Each year the Design Automation Conference sponsors several \$24,000 scholarships to support graduate research and study in Design Automation (DA), with emphasis in "design and test automation of electronic and computer systems." Each scholarship is awarded directly to a university for the Faculty Investigator to expend in direct support of one or more DA graduate students.

The criteria for granting such a scholarship expanded in 1996 to include financial need. The criteria are the academic credentials of the student(s); the quality and applicability of the proposed research; the impact of the award on the DA program at the institution; and financial need. Preference is given to institutions that are trying to establish new DA research programs.

Prof. **Elias Kougianos**, Dept. of Engineering Technology, *University of North Texas*, Denton, TX

Student: **Rahul Allawadhi**

*The SPICE Modernization Project*

Prof. **Yehia Massoud**, Dept. of Electrical and Computer Engineering, *Rice University*, Houston, TX

Student: **Arthur Nieuwoudt**

*Spiral Inductor Synthesis for Mixed-Signal Systems*

Information on next year's DAC scholarship award program will be available on the DAC web site: <http://www.dac.com>.
